

Women's Hall in District Court

2007

FIDA Inaugurates Women's Hall in Local Court

FIDA has recently constructed a hall for women in the District Court of Dera Ismail Khan. FIDA found that a lack of access to reliable information, affordable services and a secure environment were major obstacles in women's ability to get fair treatment in the courts. The hall will provide a safe, comfortable environment for women and give them access to much-needed legal advice and resources.

This is the first project in FIDA's law and justice program.
